The NETWORKLD project contributes to the DTP objectives and priority area 2 (Environment and culture responsible Danube region) by strengthening the joint and integrated approaches in documenting, preserving, managing and promoting the cultural heritage in the Danube region.

The main objectives of the NETWORKLD project are to increase the awareness of the First World War (WWI) heritage and its sustainable use for the development of quality cultural tourism.

- The NETWORKLD specific project objectives refer to: preparing a database, a strategy and management plan for architectural WWI heritage
- improving the cooperation between countries of the Danube region in order to commemorate the WWI centenaries
- increasing awareness and visitor numbers of WWI heritage by providing diversified quality tourist promotion brochures and by demonstrating the common brand "Walk of Peace" in the Danube region
- promoting the value of peace, based on a common commemoration of WWI shared past through e.g. transnational events, scientific conferences, youth exchanges, education tools

Fourteen project partners from nine countries of the Danube region and eleven associated partners join their efforts to implement these objectives. The NETWORKLD partnership and project activities are led by the Slovenian Soča Valley Development Centre.

The Rozmberk Society is the project partner from the Czech Republic. Together with local partners, the Society will establish a new WWI monument and develop education materials, trails, and exhibitions on WWI heritage.

BRAND "WALK OF PEACE"

WALK OF PEACE

Based on the cultural-architectural heritage of the First World War along the former Southwestern Front between the Austro-Hungarian Monarchy and the Kingdom of Italy, the idea of the "Walk of Peace" has been initiated in the 1970s by the Austrian Dolomitenfreunde Association. It has been developed further by the Slovenian Foundation Walk of Peace and Italian associations along the former Isonzo Front, which formed a part of the Southwestern Front of WWI.

Within the NETWORKLD project activities, the Walk of Peace brand will be extended throughout the Danube region as a common brand of the heritage of the First World War.

The brand contributes to the commemoration of all casualties of WWI and promotes the values of peace and respect. It also contributes to raising awareness of the WWI heritage and promoting sustainable tourism development.

Since 2016, the "The Walk of Peace from the Alps to the Adriatic – Heritage of the First World War" in Slovenia has been included in the UNESCO Tentative List.

The Rozmberk Society will include the brand where possible in new and existing trails in the Czech Republic.
